

***Managing Alternative Pollinators:
A Handbook for Beekeepers, Growers and Conservationists***

Outline

To Our Readers

Foreword

Chapter 1. The Business of Pollination

- The Case for a Diversity of Bees
- Pollination Costs and Benefits: Almonds
- Pollination Costs and Benefits: Cranberries
- Other Crops
- Pollination for Hire
- Pollination Contracts
- Some Final Words on Fees and Bees

Chapter 2. The Status of the European Honey Bee in the U.S.

- What Makes Honey Bees Great Pollinators?
- What Does the Future Hold?
- Strategy and Solutions
- Knowledge
- Prevention
- Control
- Why Keep Bees?

Chapter 3. A Brief Natural History of Bees

- Bees
- Social and Solitary Bees
- Development and Reproduction of Bees
- Haplodiploidy
- Full Circle: Solitary and Social Bees

Chapter 4. Pollination Botany

- Flower Parts and their Functions
- Flower Types
- Flower Reproduction
- Pollination by Wind and Animals
- Determining Optimal Pollinator by Flower Type

Chapter 5. Bumble Bees

- Natural History of Bumble Bees
- Bumble Bee Life Cycle
- Bumble Bee as Managed Pollinators

- Using Bumble Bees as Crop Pollinators
- History of Bumble Bee Domestication
- Raising Bumble Bees
- Protecting Your Colonies' Health

Chapter 6. Mason Bees

- Natural History
- Life Cycle
- Obtaining and Handling Bees: Trap Nesting vs. Purchasing
- Nest Materials
- Preferred Nest Dimensions
- Nest Shelters
- Release Rates, Methods, and End of Season Removal
- Storage, Incubation, and Emergence Manipulation
- Estimating Production

Chapter 7. The Alfalfa Leafcutter Bee

- The Advance and Decline of the U.S. Leafcutter Industry
- Natural History
- Life Cycle
- Obtaining and Handling Bees
- Nesting Equipment
- Field Shelters
- Release Rates, Methods, and End of Season Nest Removal
- Loose Cell Processing Equipment
- Storage, Incubation, and Emergence
- Parasite Control during Incubation

Chapter 8. Other Managed Pollinators

- The Alkali Bee (*Nomia melanderi*)
- Life History
- Artificial Nest Sites
- Additional Management Practices
- Parasites and Diseases
- The Shaggy Fuzzyfoot Bee (*Anthophora pilipes villosula*)
- Other Bee Species
- The Blue Bottle Fly (*Calliphora vomitoria*)

Chapter 9. The Search for New Managed Pollinators

- Cavity Nesting Bees
- Ground Nesting Bees
- Beyond Beekeeping

Chapter 10. Habitat Conservation for Native Pollinators

- Pollinator Conservation in Farm Settings
- Pollinator Conservation in Natural and Restored Areas

Appendix A. Managing Parasites and Disease in Solitary Bee Operations

Appendix B. X-Ray Procedures for Cavity Nesting Bees

Appendix C. Plants for Bee Ranching

Appendix D. Reducing Bee Poisoning from Pesticides

Appendix E. Hybrid Nest Blocks for Cavity Nesting Bees

Appendix F. Nest Material Comparison for Leafcutter and Mason Bees

Appendix G. IPM for Beekeepers

Appendix H. Additional Resources
